

COMMERCIAL KITCHEN EXHAUST HOODS

Type F

Dishwasher hood:

| | | |
|-------------|------------|-------------------|
| HCD-Series | 800mm high | wall-mounted hood |
| HCVD-Series | 550mm high | wall-mounted hood |

- 1 Exhaust opening
- 2 Exhaust spigot
- 3 Gutter & drain cap
- 4 Access panel

AS 1668.2-2012 certified

The hood design has increased the cooking equipment overhang which will improve the ability of the hood to capture the fumes (cooking process surge) and also permits a reduced exhaust rate (between 20 to 40%)

AOM can provide technical data & drawings for any job
 Required details include:
 Layout, dimensions & rating of the dishwasher
 Kitchen height (to determine hood design)
 AOM can advise on diffusing the supply air within the kitchen
