

Servicing & Cleaning of AOM Filtration Equipment

AOM Servicing Teams- guaranteeing the performance of filtration equipment

AOM offers periodic cleaning and servicing of the kitchen exhaust filtration equipment to ensure that performance requirements are continuously met.

Clients signing up to AOM Cleaning Services may be offered:

- Access to AOM bank of spare electrostatic cells and honeycomb filters
- Yearly warranty extensions
- Discounts for additional equipment purchases

AOM team members have a vast experience in commercial kitchen exhaust and filtration requirements and are also available for site reviews, troubleshooting and evaluations of existing systems.

This experience is also valuable during design, installation and commissioning phases of a project where AOM equipment is supplied

Key Clients
