SilverChef

Tenancy

Republic of Coffee Roasters Lismore

Engineer

AOM Australia in house design

Year: 2016

Web link: Republic of Coffee

Equipment:

2 x SCRUBBOX 200 electrostatic precipitators in double pass configuration

2 x OG35 ozone generators for odour mitigation

1 x Exhaust capture hood located over coffee roaster flue

Project:

AOM Australia designed and supplied exhaust and filtration equipment to achieve high efficiency filtration and odour mitigation of coffee roasting exhaust in order to minimise impact of the discharge on the local environment.
